Summary

Software Engineer with expertise in C#, Angular, and Azure seeking to contribute to innovative software development at Tech Corp. Proficient in cloud technologies, Agile methodologies, and developing high-performance applications. Eager to leverage skills to contribute to challenging projects and achieve company objectives.

Experience

(If Landon has no relevant work experience, remove this section and expand the Projects section)

Software Developer Intern – Example Company (*Month/Year – Month/Year*)

- Developed and implemented new features for the company's flagship web application using C# and Angular, resulting in a 15% increase in user engagement.
- Optimized backend processes using .NET and SQL Server, improving system performance by 20%.
- Collaborated with a cross-functional team in an Agile environment to deliver high-quality software within sprint deadlines.
- Implemented unit tests to ensure code quality and maintainability, reducing bug reports by 10%.
- Deployed and managed applications on Azure using Kubernetes, improving scalability and reliability.

Projects

Project A

Technologies: C#, Angular, SQL Server, Azure

- Developed a full-stack web application using C# and Angular, leveraging SQL Server for data persistence and deploying to Azure.
- This project demonstrates proficiency in building scalable and robust web applications.

Project B

Technologies: C#, .NET, Azure, Kubernetes

- Created a microservices-based application using C# and .NET, deployed and orchestrated with Kubernetes on Azure.
- This project showcases skills in cloud-native development and containerization.

Education

Bachelor of Science in Computer Science – University Name (*Graduation Year*) Relevant Courses: CS101, CS102, Networking, Database Systems, Cloud Computing, Software Engineering

Skills

- Languages: C#, JavaScript/TypeScript
- Frontend: Angular
- Backend: .NET, REST APIs, SQL Server
- Cloud & DevOps: Microsoft Azure, Kubernetes, Docker, CI/CD
- Development Practices: Agile, Unit Testing, API Development

Certifications & Awards

(If applicable - add certifications and awards here)

Additional Information

- Volunteer work at XYZ, demonstrating commitment to community involvement.
- Passionate about building intuitive UI/UX and collaborating with cross-functional teams to deliver high-impact solutions.
- Active contributor to open-source projects related to C# and Angular (Provide links if available).
